Dear Lanagan:-

I wrote Ricketts about the land for a fraternity house on the Institute campus, and I enclose you his letter, which I tore in half by mistake.

I also enclose a little tracing of a small map which he sent me, to which his letter refers.

I believe it would be good policy for the active members of the Fraternity to look over this ground very carefully, and to settle on some site where they would like to locate a house, and then for us with the first money we get to buy this site before the land increases in value too much. I believe we can arrange for the Institute to loan us money on the land for building, at a reasonable rate of interest, when we decide to build.

Yours sincerely,

*Henry W. Hodge*
